

HOW WE OBTAINED OUR INFORMATION FOR THIS BOOK

This work is based on original research by the members of our class. Information was drawn from old deeds and Board of Education minutes and letters. Our teacher, Miss Goeller, read most of this material and told us about it.

Mr. Richard B. Gendall, the Township treasurer and a collector of historical items on Scotch Plains, Mr. Alexander Muir, the District Clerk, and Miss Anna Littell, a former teacher in School One, spoke to us in class and gave us information about the more recent developments.

Mrs. Harmon Hartvigsen, a former student and the mother of one of the members of our class, contributed valuable information. Mrs. Paul Tuzo, of Fanwood, one of the early presidents of the School One P.T.A., told us of the development of that phase of the school's activities. Mr. Paul Van Ness, principal of our school, was very helpful when we interviewed him.

Many of our mothers and fathers, who had attended School One, also answered our questions. Of course, all the teachers in the school were very kind in helping us and Miss Walker even brought us a newspaper clipping about our early schools.

The assembly of data and the actual writing of the book was done by committees, with all the members of our class participating. We hope this work will prove of interest and will stir pleasant memories to many of the persons who are acquainted with our school.

Class 5G

1940-1941
