HEALTH AND SAFETY

The study and practice of good health and safety are very important in our school. We learn health and safety rules in our classes and we practice health and safety rules on the playground and in the streets. We have read stories and had plays about these Mr. Harry Orr, of the police department, has show us films and give us talks.

Every morning, in our classes we have health inspection. We are inspected to see whether we are neat and clean. The school nurse, Mrs. Ruth Larew, comes to school twice a week; Dr. McGinn comes once a week. We can go to see them if we do not feel well
