

*The original Fanwood hose cart from 1890 was restored by members in 1975 and appears at parades and special events.*

*Engine 4 served as the background for members posing before the 1974 Memorial Day parade.*

During 1975 the membership voted to support the borough's movement for a new municipal complex. The discussion had been ongoing and the membership hoped their support would promote quicker action. The debate/battle for a new firehouse lasted for the better part of ten years, finally the dedication of a new firehouse was held during December 1984.

*Ground breaking for the new firehouse took place on October 16, 1983 with fire fighters and borough officials taking part.*

*On the left is the older style uniform badge with the members roster number; on the right the present uniform badge which incorporates the borough seal.*
