

*A commemorative flag was donated by Ladies of the Fanwood Fire Company for the 100th Anniversary.*

In March 1989, a Boy Scout Explorer Post was established by the fire department. The explorer's are instructed by firefighters according to a guideline established by the Boy Scouts of America. Interested youths should stop by the firehouse for information.

During the last two years we have responded to three major incidents in the borough. Each case was a fire which resulted in extensive damage to the house, one in the total loss of the house. In each case there were no smoke detectors present at all, which contributes to delay in notifying the fire department. PLEASE HELP US make the next 100 years safer. Do not hesitate to call for assistance and remember smoke detectors do and will save lives and property.
