The Phi Sigma ($\Phi\Sigma$), was organized several years ago as a means of giving recognition to more honor students than can be admitted to the National Honor Society. The organization is therefore made up of the twelve seniors and twelve juniors who rank highest scholastically in their classes. In case of a tie, all who are included are admitted.

The main function of the club is compil-

ing the list of those on the honor roll. This is done after each marking period.

The students have as their aim an improvement of the scholastic standards of the school. Many interesting discussions have taken place in the monthly meetings of the organization, which has Miss Roberts as its advisor.
