The Commercial Club was organized a year ago for the purpose of acquainting commercial students with the problems of the business world. Anyone taking typing may join the Commercial Club.

The members of the club make their own plans for the year. This year these students attended comptometer and typing demonstrations, and held a typing contest. They also took a trip to New York to see some business offices.

The Commercial Club sponsored the year's first dance held after a basketball game. Profits from the dance, as well as club dues, buy new equipment for the department and also pay for the Gregg awards in typing and shorthand.
