

# *Dedication*

We, the Class of 1948, dedicate this, our senior yearbook, to our Guidance Director. During his first year in this position, Mr. Evans has worked to make the future happier for us. We know that in later years we will feel his good influence on our lives. But Mr. Evans, to us, isn't only a guidance director; he isn't only a teacher. He is a friend whose sincere, informal nature has brightened otherwise dark situations. We can never express our true appreciation for what he has done for us, but we do hope that this book will remind him of the class that can never forget him.
