

### CAROLYN BOLLMAN

Student Council, Chairman Point System Committee, Candy Committee, Orchestra, Library Council, Girls A.A., Basketball, Service Club, Phi Sigma.

When "Lyn" came from Rutherford last year, it was quite a gain for SPHS. She likes everything and hates nothing. That makes her something novel in people. "Lyn" is a little gal with big ideas. She wants to be either a physicist or a mathematician. Oberlin is the college of her choice. We'd like to mention, also, that she is an accomplished musician!

### ANNABELLE BOYKIN

Girls A.A., Commercial Club, Girls Chorus, Mixed Chorus, Service Club.

Needlework, any kind at all, makes Annabelle happy indeed. Crocheting and knitting are her specialties. Each and every sport is a welcome friend, too, with baseball and basketball heading the list. If you're looking for a whirlwind typist, here's Annabelle! The future will probably find her in a school of typing or needlework.

### MARIE BOYKIN

Girls A.A., Girls Chorus, Senior Chorus.

A song rises in the air, and we are thrilled to hear Marie's beautiful voice! Friends have suitably called her, "That King Coles' Sister"; naturally she's an important member of our chorus. Marie is well-liked and always full of fun. She intends to enter a college and major in music. Her favorite wish is "to attend the Julliard School of Music."

### KRAIG BRIGDEN

Service Club, Student Council, Culmen.

Kraig is just the guy to save our lives. He's one of our most brilliant aquatic stars, and he's not dumb either! He rates horseback riding and swimming highest on his sport list. A real brain in Science and Math. He's a quiet guy and full of surprises. Kraig plans to attend Cornell where he will study electrical engineering.
