 Faculty Advisor Mrs. Hazel Stocker

Girls A. A.

The Girls A.A., was reorganized in October, for the purpose of making possible organized competitive activities, intramural and with other schools.

This year, under the faculty advisor, Mrs. Hazel Stocker, the Girls A.A. has added a new activity, archery, which is quite popular. Special classes were held at the Highway Archery Range Tuesdays and Thursdays, and a few tournaments are anticipated in the future.

Last year an intramural baseball league was started, and when enough experience is obtained, they hope to have regular baseball play days.

Probably the most popular sport is basketball; each class has its own team, and play-days, both home and away, are arranged with neighboring schools.

At the end of each year awards are presented to girls participating in any sport.
