The Library Council was organized in 1942, to interest students, bound by a common interest, to work in the school library.

Meetings are held monthly under the supervision of our librarian, Miss Ayers.

The work in the library consists of: desk work, mending books, collecting fines, preparing books for circulation, and keeping books in order. At least two periods a week are devoted to work in the library, and at the end of the year the student receives one school credit for his work.
