## ORCHESTRA

The orchestra has been accomplishing something this year that others have not been able to do. They have been able to make classical music more popular among high school students than ever before. The orchestra is always ready and willing to play for our Junior and Senior plays, our other annual events, and any miscellaneous programs which may occur. The orchestra has been increasing not only in size, but also in their ability to play. "The Night of Music" is the orchestra's "night of nights" when they really shine. The soft violins, the twinkling piano, and the tuba are all put together to form the one and only Scotch Plains High School Orchestra.
