

Meet Archie - America's Typical

"Teen Ager"

FOREWORD

Archie Andrews and the class of 1950 present THE CULMEN. We've tried to make this book a souvenir of our years at Scotch Plains High School. Struggles with math, gay proms and plays, harrowing exams, fun and friendships— We've tried to put all these between two covers. That we may look back on it in years to come—and remember.
