

# SENIORS

**ELEANOR DITZEL**

**Culmen; Commercial Club.**

Shy and sweet, Eleanor is one of our quieter seniors. Along with knitting, she is "nuts" about motorcycles and square dancing. Eleanor is too fond of the farm to leave after graduation so she wants to get a secretarial job "right around here." We are sure her high school training will help her greatly in this field.

**JOHN DOMBROSKI**

Jack joined the senior class from Wisconsin and has done quite well for himself. Everyone enjoys his dry sense of humor and understanding ways. John established himself quickly, especially with the undergraduate girls. Although he has made no definite plans for the future, he is sure some sort of machine work will suit him best.

**JOHN AUGUST FISCHER**

**Junior Class, President; Student Council; Service Club; Phi Sigma.**

Always ready with a helping hand for those unfortunate people who didn't understand the homework, Johnny has proved a friend to many. His activities weren't purely academic, tho', for he was class president in his junior year. Then, too, he'll be remembered for his unexpected remarks in class. John hopes to be an aeronautical engineer.

**JUNE ANN FISCHER**

**Commercial Club; Culmen Staff.**

Blue-eyed June is another one of those energetic commercial students often seen in the vicinity of the typing room. Among her likes are clothes and almost all foods including chicken and pizza, but the one thing she dislikes is a common one—a "butch" haircut. She also likes to collect records. We hope June's ambition will be fully satisfied in a good secretarial position.
