

CLASS OF 1950

BETTY JANE OSWALD

Girls' A. A.; Art Club, Secretary; Service Club; Commercial Club.

Tall, attractive "Osie" has a real sense of humor and she keeps her friends rolling with laughter. Though many things appeal to her, she considers art pretty special. Betty is a little vague when it comes to her future, but she thinks that she might attend art school, and go on to work in fashions or commercial art.

STANLEY GILBERT OX

Service Club; Track.

Stan can add spice to any argument! Friendly and good-looking, he is known for his handsome shirts. His hobbies are the Civil Air Patrol and his snappy "limousine." Science and Math rate high with Stan and he hopes to be an aeronautical engineer. We wish you the best of luck, Stanley, 'cause you really deserve it.

EDWARD B. PENRY

Service Club; Projection Squad; Football; Student Council; Culmen.

While Ed's main interests lie in the field of rod and gun, he has made quite a showing for himself while at S. P. H. S. Cute, fun-loving Bruz is one of the projection boys and has a huge number of buddies—including a special sophomore. Ed hopes to go into some field of advertising, although he hasn't quite decided which one.

AMELIA MARIE PERRUCCI

Commercial Club; Girls' A. A.

"Millie," the gal with the long, dark hair, can usually be found in the commercial wing, for there lie her interests. Her favorite subject is stenography, and after the big day she aspires to be a secretary. Most agreeable (as a matter of fact, she's usually laughing) Amelia dislikes nothing that she can think of. Her success is assured!
