THE FRESHMEN

The class of '53 had a late start in organizing but it proved worth it when the capable officers above were elected. Time flew so fast and before we knew it spring and the Freshmen Dance arrived. The Freshman Dance came too slowly and left too fast but it left in its wake memories of that special kind of fun that only comes with a dance you've planned yourself.

The freshmen were interested in their class activities and all of them worked hard to make the year a success. Three happy years to the class of '53!
