ART CLUB

An especially well organized group in our school is the Art Club, which has flourished this year under the direction of Mrs. Henry. The members decorated the main doors at Christmas and made posters and signs all through the year for organizations in the school and community. As an extra project, the artists of our school visited the Van Gogh Exhibit at the Metropolitan Museum of Art. It is our fond hope that each of our hard-working art students will have his own exhibit some day that high school art clubs will go to see.
