

# TRACK

Track is one of the most important sports in our system as proved by the many boys that participate in it. During this past year they have gone undefeated under the guiding hand of Mr. Callaghan who taught them real skill and sportsmanship in every event.

Although the sport of golf is little known about S.P.H.S., it is very popular among many boys. The motto of this team is sportsmanship all the way through, and they have profited by the practice of this characteristic. We know that the boys have learned much under the guidance of Mr. Adkins, their coach.
