

Advisor . . . MRS. HAZEL STOCKER

The Girls' Athletic Association, composed of freshman, sophomore, junior and senior girls was created to give girls the opportunity to participate in baseball, basketball, hockey, and other sports in both intramurals and with other schools.

Basketball and baseball teams were organized, according to classes, as well as a swimming and an archery club. If the girls participate in all the sports days and if they don't miss more than two practices they receive an award in June.

Following the last year's plan, whereby the Board of Education paid expenses, the members of the club didn't pay dues. But to collect for refreshments on sports days the club gave a movie on November 4, entitled "The Fighting Seabees."
