

Robert Lee Blackman

Moonglowers; Art Club; Fanscotian.

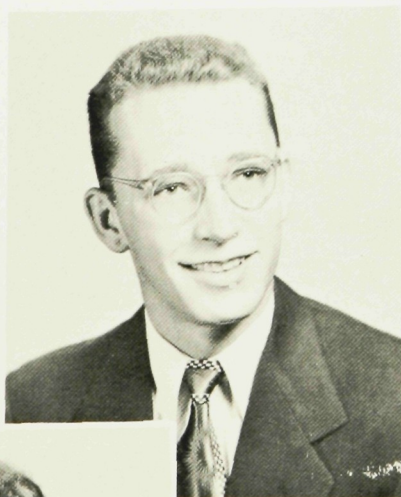

"Bob," known by his closest friends as "Minnow," made a name for himself by organizing and directing his own band. "The Blackman Band" is well known around these parts and has played at many dances, inside of school as well as out. He thinks stock car races and ice skating are a lot of fun and likes "driving the old '37 Plymouth." After spending some time in the Navy, "Bob" would like to keep on with his band and we know he'll become a topnotch leader.

Fallendin August M. Bolzner

Band; Orchestra; Fanscotian; Projection Squad; Manager, Basketball.

Ever smiling, Fallendin is an added amazement to the class of '53. He is an ardent Dodger fan. As a matter of fact he likes all sports, hockey and basketball taking first place. Photography is this young man's main interest besides his black '37 Studebaker, which is a familiar sight around Scotch Plains. In the future, Fallendin intends to study radio and television repairing at night school.

James Lynden Bond-Nelson

Projection Squad; Track; Football.

Tall, curly-headed "Bugs" is another fellow who likes to mess around with cars. His '29 "Model A" has everything—even a floor. He also collects stamps and likes to eat good food. "Bugs" can't stand people who talk too much and he can probably pass judgement since he is fairly quiet himself. Though his future plans are indefinite, they include college where he'll probably take up engineering. Whatever he does we all wish him lots of luck.

June Brynildsen

"Junie" has been with the Class of '53 in her Sophomore and Senior years. She is one of the shortest and cutest seniors at S.P.H.S. June likes to eat, likes good-looking fellows, and fashionable clothes. She dislikes red hair, boys who don't shave and people who don't finish what they start to say. After graduation she plans to go to Secretarial School. "Junie" can be counted on to be the life of any party.
