

Joseph Comer

Art Club; Science Club; Basketball; Football.

"Joe" is one member of our class who is an ardent fan of that sport called fishing. Also tops among his favorites are cars, football games, dancing, and that good ole' southern fried chicken. "Joe's" one dislike in school is homework. Always a neat dresser, and always going somewhere, there's no telling what will happen when "Joe" leaves the halls of S.P.H.S., and heads for college or the navy.

Mary Louise Crilly

Library Council.

Mary came to us in her junior year and became a part of S.P.H.S. right away. She is fond of swimming, sewing, and knitting and likes to see "the younger ones happy." People who brag about themselves are not popular with Mary. She spends a lot of time trying to organize a girls' basketball team for the C.Y.O. Mary Louise's future plans are not definite but we wish her success in whatever she does.

Florence Theresa Critelli

Fanscotian; Service Club; Library Council; G.A.A.

"Florrie" is a girl who likes to laugh. Dancing, cruising around, and cracking gum are fun besides. Like many others in the class of '53, Italian food tops her list of good eating. Of the many baritones, Perry Como ranks high with her. Although her future is hazy, "Flo" hopes to work in an office after graduation. Good luck, "Flo," in whatever you choose.

Frank Robert Day

"Daysy" has many hobbies including magic, hypnosis, spear-fishing, swimming, and playing the accordion, uke and piano—quite a variety! It is amazing that he dislikes the average American girl. It is not so surprising, however, that he likes to eat—especially fried skate wings (?). Tall and quiet, he is usually seen spinning around in his '37 Dodge. "Daysy" plans to join the navy and become a machinist in the submarine department. Good luck to you down there, "Bob."
