

Rose Marie De Vico

Sr. Chorus; Library Council; Art Editor, Fanscotian.

Rose Marie is one of the trim secretarial students you are apt to see in the hall. Her likes include animals, spaghetti and meatballs, and chocolate cake, which lucky Rose may eat and still keep her figure. As editor of the art department of the Fanscotian, you can tell she likes to draw. She acutely detests "immature men" and what girl can blame her? Since Rose Marie loves office work and typing, her life ambition is to be a secretary. She'll make a good one!

Ursula Margaret Di Nuzzo

G.A.A.; Art Club; Fanscotian.

Ursula is one of the newer members of our class, but she soon became known to all of us. She is fond of dancing and is now studying ballet. Food and any kind of music also hold her interest. One thing "Ursie" does not like is short boys—(what tall girl does?) If anyone wants to know of a good mystery book, just ask Ursula. As you can see she is an all-around girl. With her pleasant smile and height we know "Ursie" will succeed in her hopes of becoming a fashion model.

Anthony V. De Prospero

Vice Pres., Junior Chorus; Senior Chorus.

If you see someone go by with a flashy tie you know it's "Tony." As one can gather, "Moon Dots" (his ties!) goes in for bright clothes. Tony is always well dressed and besides clothes, he likes good times and girls. However, he thinks history, drinking, smoking, and certain people are to be avoided. "Tony's" future plans are undecided, but he would like to become a builder or open some type of business.

Daniel Joseph Di Quollo

Senior Chorus; Football.

If you see a short, cute boy bobbing down the hall you know it has to be "Danny." Liking cars, he says "Mercury" convertibles are his favorites. He also thinks women, steak and turkey dinners, camping and hunting are okay. "Danny" enjoys playing football, but baseball is taboo. As for the future, "Dan" isn't quite so sure, but he says, "maybe the Air Force." We all wish you lots of luck, "Dan," and know that with your personality and laughter you'll succeed in whatever you do.
