

Benjamin Gibbs

"Ben" may not have any activities in school, but out of school he is a busy boy. He enjoys all sports and likes outdoor life. He likes to take camping trips, especially when the fish and rabbits are waiting to be caught. "Ben" or "Buzz," as his friends call him, also thinks tinkering with cars is fun. However, school and homework are loathed by "Ben." He expects to go into the construction business with his father after the big day. We know this "outdoor" boy will succeed in this chosen field.

Eugene Thomas Godby

Student Council; Sr. Chorus; Service Club; Fancotian.

Oh girls! Hear that beautiful voice? That's "Gene" Godby, the rage of '63. Yes, "Gene" is known for his voice in the class. His main interests are music and opera singing. No one in the class will forget "Gene's" interpretation of "Because" in the Junior Assembly. The Senior Chorus president this past year was "Gene" Godby. He did a good job and was a great help when the Chorus gave their movie to raise funds. "Gene" plans to go into the Coast Guard after school and also to study music.

Philip Peter Gottfried

Student Council; Fancotian; Culmen; Service Club; Science Club; Projection Squad; Jr. Play; Baseball.

Paper! Paper!—that familiar call is given by "Pete." In early September it was "Pete" who went to all the teachers and convinced them to buy a daily paper that has been a great help to the students in both English and history classes. Besides selling these, "Pete" likes fishing, cooking, eating, swimming, bowling, and hockey. To be a hotel manager is his ambition and we are all sure we'd like to be in a hotel managed by him.

Fraser Frederick Haley

Varsity Club; Basketball; Baseball.

Perhaps the quietest boy in our class is Fraser Haley. However, everyone knows he is a most fervent baseball fan. In the spring Fraser is found practicing baseball on the field—and he is a good player, too. Driving and working on his car are his favorite pastimes. As yet, Fraser's future is not definite. Maybe he will go into the sports field or mechanical field. He might even be a baseball player.
