

#### VIRGINIA ANN CONNELL

*Senior Chorus; Las Contadoras; Band; Fanscotian; Culmen; Junior Play; Dramatics Club President; Art Club; G.A.A.*

"Ginni's" never too busy to flash you her friendly smile. Sometimes it seems as if she doesn't have a care in the world. Actually she has "a finger in every pie." Fine arts are her strength. They will be her major when she enters Wittenberg College (Ohio).

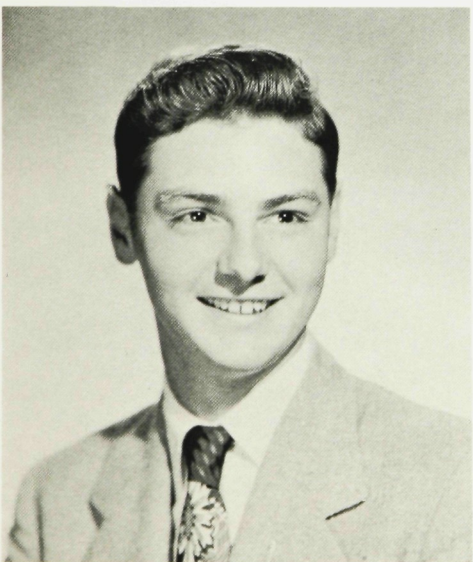

#### DOMINICK J. CRITELLI

"Dom", one of our commercial students, thinks he would like office work, and evidently it would like him. His work in typing and bookkeeping is certainly above average. Dominick's interests are varied though—from business to mechanics. Everyone who knows this boy knows he loves automobiles. Junior college will prove that he favors business administration as a career.

#### DAVID M. CURTIS

*Student Council; Jahn Jr. Math Award; Junior National Honor Society; Baseball.*

Almost any day of the week you can see Dave driving around in his Ford. His love for cars is evident to all who know him. His skill in math and surveying is no secret either. Dave plans to major in math and science in college which, incidentally, will be Massachusetts Institute of Technology. He hopes they don't drill on English though. That is his special dislike where school is concerned.

#### WILLIAM ALBERT DAWE

*Band; Orchestra.*

Bill is a person who "seems" so quiet—until you know him! Then you find out that he is really full of fun. He says he likes to play golf, but we wonder if it's not the trouble he can get into rather than the golf game that attracts him to Shackamaxon. Bill wants to go south to college (preferably North Carolina) and take a liberal arts course until he decides on his major.
