

Mr. Laurence Mason

This year the Guidance Department sent out weekly notices to keep the student body informed on everything from College Boards to part time jobs. Mr. Mason visited several colleges, and in return, representatives from colleges and industries visited S.P.F.H.S. To Freshmen, Guidance sometimes seems to be the group of people who keep tabs on our grades, but upperclassmen, and especially Seniors, know that the Guidance Department is a group of people who are always willing to help us solve our problems, and plan our futures.
