"Nolite ire ad machinam quae graphia acuit classe Latina!"

("Don't go near the pencil sharpener in Latin class!")

Mrs. Frances Peer

Strange sounds are often heard coming from the vicinity of the language rooms. Who could ever forget the stirring sounds of La Marseilles, or of our alma mater being chanted in Latin? Spanish classes enjoyed the mental stimulus of oral talks on such exciting subjects as bull fights. Spanish III is unusually quiet because the class converses only in Spanish this year. Latin III was reinstated after nine people "volunteered" to take it. French III pupils are graduating secure with the knowledge that they have finally mastered French II. Learning the languages of other countries brings us closer to world understanding.
