

# ART

*Mr. Dennis Ellmore*

"Creation of an object through various mediums" is a definition of art. In this class, a student learns to incorporate the basic skills of form, shading, balance, proportion, and color into his work. This year, under new leadership, the Art department has been constantly busy setting up ingenious displays and arranging the front hall showcase.

The excellent facilities of the art rooms allow students to model in clay, draw, paint, and generally express themselves with their hands.

# READING

*Mr. Albert De Sousa*

Reading is a non-credit course that helps speed up reading comprehension and tries to teach good study habits. It is also a chance to get to know one of the best liked teachers in our school and to finally learn what an SRA lab sheet is. At last we know how to operate the tachtiscope and the "little guillotine." Individual help is the keynote of reading. S.P.F.H.S. can be proud that it has one of the finest reading labs in Union County.
