

# MATH CLUB I

The members of this club learn to balance their a's, b's, c's, and d's, and invariably come out with all A's. Mr. Heller helps his ambitious students with herculean puzzles and mathematical riddles at their monthly meetings.

LEFT TO RIGHT: C. Hutchison, P. Vance, M. Gowsky, A. Hawk.

# MATH CLUB II

## MATH CLUB II OFFICERS

President ..... Tom Wood  
 Vice President ..... Richard D'Arconte  
 Secretary-Treasurer ..... Nancy Winsor  
 Adviser ..... Mr. Gleim

Sometimes a triangle can be a vicious circle, but Math Club II members learn the more complicated theories of geometry that are not taught during class time. Mr. Gleim untangles the confused thoughts of members with more tedious puzzles and problems. This training comes in handy not only for future homework, but also as a firm basis for higher education.

FIRST ROW, left to right: J. Kenyon, K. Carpenter, R. D'arconte, D. Bishop, N. Winsor.  
 SECOND ROW: D. Gath, J. Torkelsen, B. Butillo, B. Zaumen, T. Wood, S. Blazo.
