MATH CLUB III OFFICERS

- President William R. Anderson
- Vice President Richard Berthold
- Secretary Sue Shepnew
- Treasurer Carol Lynne Bell
- Student Council Rep. Cathy Branch
- Adviser Miss Roberts

Solving the Pathagoreon Theorem and other such complicated proofs is kid stuff to the members of this club. This club is open to those students taking Algebra II or Trigonometry and Solid Geometry, all of whom have gained a solid foundation in mathematics and now have the urge to put that knowledge to practice. Many opportunities are offered to them to do this under the supervision of Miss Roberts and various guest speakers.
