

SOCIAL STUDIES CLUB

What makes the world go around? Physics students may say it's gravity and Economics pupils might answer "money," but a member of the Social Studies Club is apt to come up with the reply "people." Introduced as a new activity last fall, the group is made up of students wanting to learn more about Social Studies than generally taught in the high school classroom. The club delves into our world of past and present, covering all phases of the all encompassing Social Studies.

FIRST ROW, left to right: J. Berner, P. Koep, J. Ball, B. Stamm, B. Hook, K. Bellas, C. De Filippis, M. Klastave, P. Alevson, B. Gilbert. SECOND ROW: J. Nelson, B. Gillmann, E. Roberts, M. Holt, J. MacKay, B. Miller, K. Rabassa, B. Norris, D. Jannuzzi. THIRD ROW: L. Kleimack, R. Bower, M. Adams, J. Torkelsen, D. Morris, A. Thomas, P. Mitchell, A. Hawk, S. Walker, J. La Casse. FOURTH ROW: L. Frank, R. Rahn, S. Hawk, J. Zetto, J. Gutmacher, W. Rohr, R. Vollweiler, D. Slivinske, M. Clancy.
