With research papers, essays, and reading assignments being done in every English and history class, and the great amount of pleasure reading among the members of our student body, our library might be called the "hub" around which our scholastic work revolves. Our Library Council, under the guidance of our librarians, Miss Ayers and Mrs. Turner, is largely responsible for the efficient and well-run library we all have the pleasure and privilege of using. We are all very grateful to the Library Staff for the wonderful job they are doing, and for their part in making our library one of the greatest assets to our school.
