## ORCHESTRA

Mr. Checchio

Those beautiful strains we hear coming from our auditorium on alternate assembly days are the proud product of our orchestra. Under the expert conducting of Mr. Checchio, this group specializes in the more classical music, and in this way differs from our Band. An example of their talents was displayed in our Oratorical Assembly when they played "Camelot." "The Sound of Music" is another composition which, when played by our Orchestra, makes us proud of the fine accomplishments of our Music Department.
