

*Future MOONGLOWERS material?*

## WIND ENSEMBLE

The wind ensemble is a group of students who practice together in order to learn the fundamentals of dance-band playing. This group has been featured for dancing after Band and Orchestra programs. After many rehearsals and hours of playing, the members will be ready to try out for Moonglowers.

## STRING ENSEMBLE

*Mr. Checchio*

Overcoming the difficulty of playing a string instrument is the main concern of this industrious group of musicians who gather once a week to work together. Experienced as well as new players take this chance to improve their technique and practice orchestra pieces.

*The string ensemble at one of their practice sessions*
