

# FUTURE TEACHERS OF AMERICA

Mr. Kurek

The teaching of the three R's and the moulding of America's future generation are the principal aims of these aspiring future teachers. As the members of this club are considering various levels of teaching, teachers from every field and phase have talked with them, helping them to decide on their field. This past year the club enjoyed a trip to one of the local teacher's colleges and a tea with a neighboring FTA club. Climaxing the year, the outstanding members are given special FTA pins.

FIRST ROW, left to right: C. Ambruso, M. Griffin, M. Hodge, C. Smith, J. Platt, S. Walker, M. Kelly, G. Churik, G. Cunningham, J. Nelson. SECOND ROW: N. Radino, P. Ross, P. Jankovic, C. Holt, L. - Secretary-Treasurer ..... Janice Kersis

For those girls who aspire to become nurses, the F.N.A. offers an opportunity to learn more about the medical profession. The girls learn recent developments in nursing and its many rewards by hearing guest speakers. Visits to local hospitals and nursing schools allow members to become even more familiar with their chosen vocation by observing nurses at work.
