

Geel! I love English!

"How many did your homework?"

Silas Marner sure led a thrilling life.

## ENGLISH

Mr. Edward Braynock

Combined into four years of English is a background on which we all build our futures. This is why so much emphasis is placed upon it. Accordingly, you can imagine why we are tested and retested, drilled and re-drilled on our articulate grammar, extemporaneous speeches and comprehension of Dickens, Longfellow, Shakespeare and Browning! From plays, novels, poems, short stories and movies we extract qualities of understanding and knowledge to which we owe our note of thanks to the English department. Their cooperation and diligence in all mediums comprise the basis for our futures.
