BUSINESS EDUCATION DEPARTMENT

There are two distinct sounds emanating from the Business Education Department. One is the crackle and crunch of Peanut Crunch. The other more academic sound is the clickity-click of the typewriters which can be heard incessantly from first period to seventh period.

The students who elect Business Education courses—typing, shorthand, transcription, and bookkeeping, are prepared for the business world or secretarial school with these valuable skills.

Credit is due to this department for the excellent job they are doing for Scotch Plains-Fanwood High School.
