

"What do you mean, my own foreign policy?"

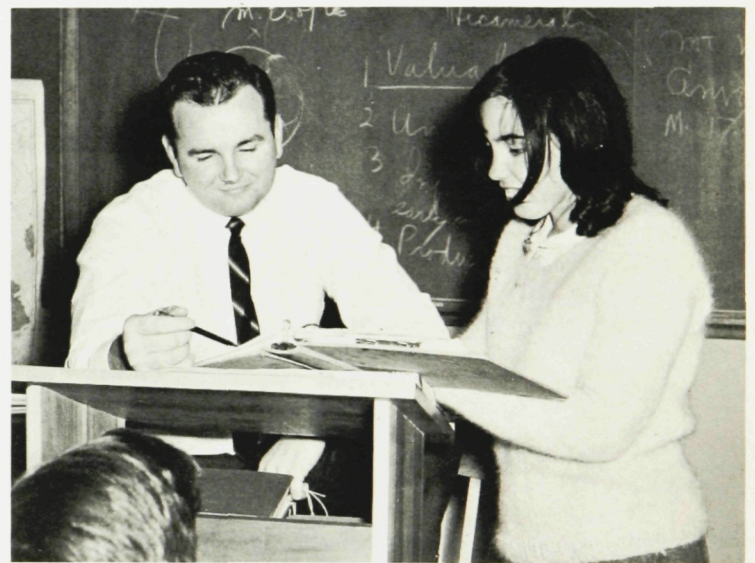

SOCIAL STUDIES DEPARTMENT

Mr. Charles Armerding

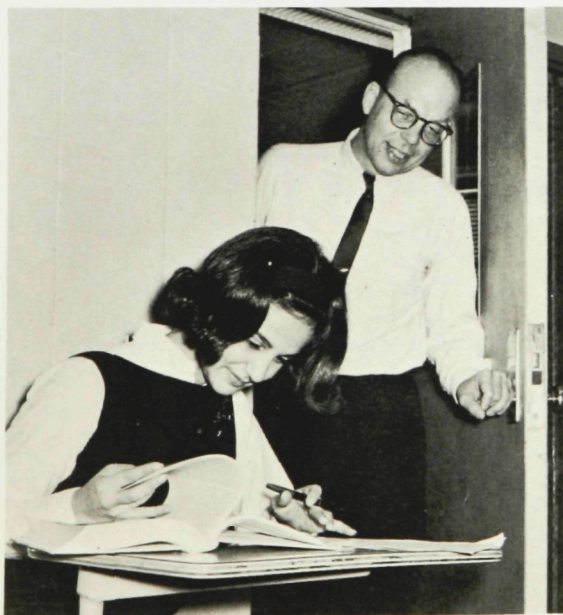

World Cultures, a study of people, their problems, and contributions to the world, is another new course that has been added to our ever growing social studies department. The course deals particularly with the African nations.

Under the direction of our capable instructors we discuss and debate the many phases of communism, capitalism, democracy, and imperialism and are encouraged to form our own opinions.

It is here that we learn to understand our fellow men and how to live with them, for the study of the past can help us understand the present and plan for the future.

"Aha! This is what you do while I'm talking?"

"So that's why she does so well on make-up tests!"

"Sorry, boys, but I'm not playing Santa Claus this time!"
