CAFETERIA STAFF

Under the guidance of Mrs. Ulrich, and chief cook Mrs. Mahler, our cafeteria measures up to the rigorous standards set by the Board of Education Cafeteria System. The standards, of course, exceed the minimum requirements of local, state, and federal health and sanitation regulations, as well as the nutritional factors set by authorities.

Our twelve member Cafeteria Staff, of which we are particularly proud, has its own high standards above and beyond the minimum requirements. These concern the cooperation and genuine effort to please the "patrons," factors which are important to all of us and are well-appreciated.

CUSTODIANS

Thanks to the continuous and efficient work of the custodial staff, S.P.F.H.S. is a fine looking school that we are all proud to have others see.

Walking down the halls or in classrooms, you will find that they are clean and in tip-top condition. If there is any repair work to be done, the custodians take care of it right away. Through their efforts our school has maintained its new look.
