Interested Algebra II and geometry students gain a greater insight into the wonderful world of mathematics through this organization. Under the able leadership of Mr. Gleim, the students study and discuss the basic ideas of mathematics and gain a greater understanding. All of the club's activities are aimed towards this purpose: to create a deeper understanding of the mathematical world surrounding us.

MATH CLUB II-III

MATH CLUB IV

Miss Alvord

Under the direction of Miss Alvord, interested students taking math analysis further their mathematical knowledge. Some of the club activities include playing games and solving puzzles based on mathematics. Many important principles of mathematics are studied and are made clearer as students gain a deeper understanding of the subject. This club, designed to teach as well as to entertain, attracts the best of the school's senior math students.
