

BUSINESS EDUCATION CLUB

Miss Byorek

Have you ever heard of Bower's Peanut Crunch? If not, chances are you have never been exposed to the excellent salesmanship possessed by the members of the Business Education Club. Their annual faculty tea, Christmas party, and trip to New York City are but a few of the year's highlights. As well as seeing movies instructing them on the techniques of stenography and typing, the members listen to speakers who helpfully tell them what may be expected of them in their chosen field. Membership in this club is small and open only to those taking business courses.
