*"Frere Jacques, frere Jacques"*

### Miss de Pauw

Every student introduced to one of three foreign languages in S.P.F.H.S.—Spanish, French or Latin—leaves it with a deeper understanding of the country, its people, and its culture.

In first studying a foreign language the student learns the basic vocabulary and grammar, and acquires the basic skills of speaking. The following years of study are devoted to perfecting grammar skills and learning to speak it fluently. The language lab is available for students to develop good pronunciation and listening skills.

Learning a language is an important part of every student's high school years. For it is in this study that we learn about other people, not only about how they speak, but also about how they live and how they are related to us in today's modern world.
