

HOME ECONOMICS DEPARTMENT

Mrs. Perry

The Home Economics Department of our school is responsible for preparing the homemakers of tomorrow. The training the girls receive in the Foods, Clothing, and Family Living classes is both useful and important. It includes instruction in such areas as food preparation, nutrition, and the proper care of clothes. The clothing classes are especially practical because they provide the girls with the opportunity to enlarge their wardrobes on a small budget.

Home Economics is certainly an integral part of every girl's training because it provides her with an understanding of the family problems she will have to cope with in the future.

Clothing and Family Living

"Is it side 'z' to sleeve 'q' or sleeve 'z' to side 'q'?"

"Ooo . . . You mean this can be my very own?!"

"Awright girls . . . two burgers to go, easy on the onions."
