## LIBRARY

Miss Ayers

Our library offers much information for us to read and enjoy. The fine magazines and book collections as well as reference materials, makes research papers enjoyable and profitable experiences for us. Many valuable and entertaining novels enrich our minds and imaginations.

*"Do ya mind?"*

## AUDIO-VISUAL DEPARTMENT

FRANK D. MALESKI  
Montclair State College

Columbia University, M.A.

With the careful coordination of the functions of the Audio-Visual Department by Mr. Maleski, the operation of audio-visual aids and backstage equipment is smoothly carried out.

Under the direction of the department, each boy has been taught to operate all audio-visual equipment as well as backstage machinery and can be depended upon to help classroom teachers and students, who always enjoy a class period monopolized by a film.

From that little room in the library come some of our school's most interesting and enjoyable educational treats.

*"Ah . . . well . . . I'm  
really taking it to room  
317."*
