"Give me my thermometer!"

NURSING DEPARTMENT

Mrs. Bellamy

Our school nursing department is comprised of extremely capable staff members. They co-ordinate and administer several hundred physical and dental check-ups as well as eye tests for those all-important student driving permits.

However, their job does not end here. They manage to branch off into the teaching realm of S.P.F.H.S. by advising the Future Nurses of America organization.

So, be it a physical education casualty, a case of measles, an injured shop worker, or a simple headache, the high school nursing staff is well prepared.

The secretaries of our school are well known to everyone in S.P.F.H.S. Besides expertly executing all office duties, they are always ready to help us in any way possible. Issuing passes, taking care of lost lunches and books, and answering the telephone which seems to be ringing constantly, are only a few ways in which they serve our school.

OFFICE STAFF
