

INDOOR TRACK

Mr. Morgan

Indoor Track is, perhaps, one of the most difficult sports in which to obtain recognition. This is because many times one of our runners may compete with a hundred other boys in an event. This year, though, indoor track is becoming better known in S.P.F.H.S. Coach Morgan has done much for the team in both beginning

dual meet competition and also the always tremendous task of building a good team. These athletes practice long and hard after school in our back halls and, for their efforts, they proudly display a sixth place in the State meet. This was attained by a worthy combination of sprinters, distance runners, and weight men. Our congratulations to Coach Morgan and the entire team.

Mr. Sochan

Our baseball team is one which receives little attention from the student body, but which works as hard as any to give the school a winner. Practice begins right after school and ends at dusk. On rainy days practice is held in the gym, or skull sessions are conducted in Mr. Sochan's room.

Last year was primarily a year of rebuilding for the Blue Raiders. The team consisted of many juniors and sophomores. Even with this inexperience, the team managed a 6-11 record. This was impressive in that most of the opponents fielded senior-laden teams. The 1964 team was led by co-captains John Matusik and Joe Hammes. Matusik was also voted the team's most valuable player for his fine all-around play.

Returning seniors are Keith Lippert and Bo Sieredzki, each with two years of varsity experience to his credit. Allan Clark, an impressive sophomore pitcher of last year, will also be back as a starter. With strong hitters such as Terry Morton, Mike Jackson, George Voget, and John Kocher to go with the fine mound corps, the Raiders are prime contenders for first place in the Watchung Conference.

BASEBALL
