

For many of us a way of life has ended. The corridors of S.P.F.H.S. will echo through the summer months with memories of 1968-1969. In September, the Seniors' new existence will be shaped from their experiences here. Underclassmen are now faced with the responsibility of furthering the ideals and traditions that the Seniors have left behind.

CULMEN '69 has chronicled many of the outstanding events of this school year. It is not easy to record in words and pictures the essence of a year of living and the emotions of the people who have structured it. What has been put into this yearbook will be supplemented by your memories.
