Often unheralded for their efforts and for the performance of an abundance of tasks for faculty members and students alike are the members of the staffs at SPFHS. Preparing the daily announcements and bulletins of information occupied much time in a day of the Secretarial Staff. Twice as much time, however, was spent handling irate parents, preparing working papers, lending a fortune in dimes to students making phone calls, finding lost or stolen coats, and handling hundreds of other spontaneous emergencies. Responsible for the maintenance and cleanliness of the building are the members of the Custodial Staff. Keeping the hallways and the restrooms clean, when possible, setting up facilities for dances and cleaning up afterwards, and preparing for any special programs which were held at the school made custodial work at SPFHS a full time, and sometimes a thankless job. And who could forget the Cafeteria Staff, which was faced daily with the task of handling 1,750 starving students? Special recognition here goes to Odette Ulrich, who has served as part of the Cafeteria Staff at SPFHS for over twenty years.
