

LORAIN AYERS

BRENDAN CROSBY

"How 'bout that, Fanwood is listed in the world almanac!" Kathy Greenly.

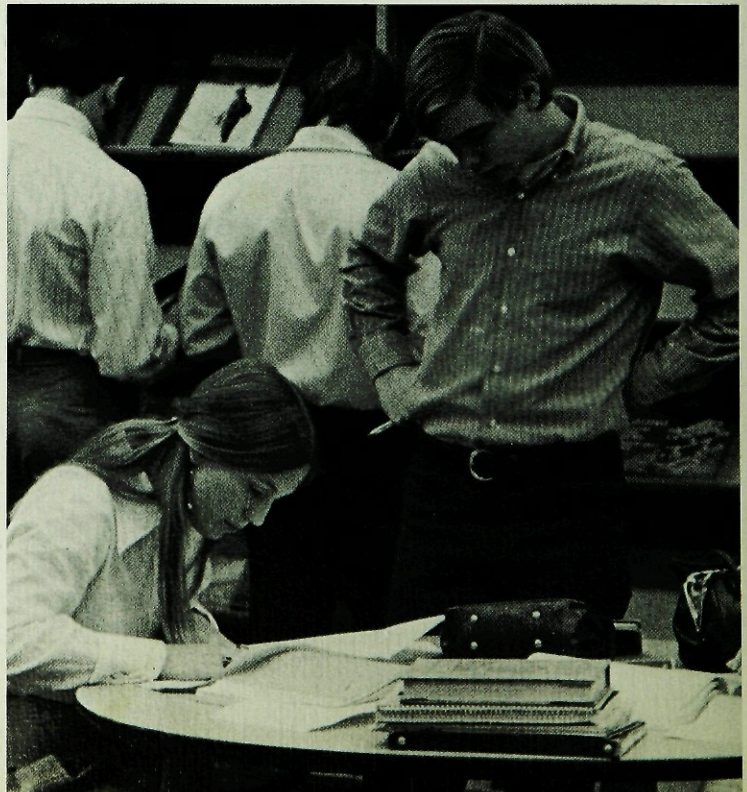

Mrs. Christine Casey, Mrs. Grace Macaulay, Mrs. Marion Escoffier.

## Media Center Offers New Learning Experiences

This proved to be a year of change for the Media Center, which was formerly referred to as the "Library." The new two-floor Media Center is located in the center of the new addition at SPFHS and is completely removed from its former facilities. It was equipped with comfortable chairs, new equipment for students' use, and enclosed desks which contributed to a more relaxed atmosphere for better studying.

On the second floor of the Media Center, along with much reference material, are the new academic department rooms and their respective independent study areas. To increase scholastic efficiency, each department was placed adjacent to its related reference materials.

Cross-media kits, the copy machine and other visual and oral media, available for the students use, enabled students to find learning a more interesting experience.

"Are you sure that looks like my handwriting?" Rich Haase, Linda Torkelsen.
