

Julie Cirelli, "in flight".

Cindy Mancini looks at gymnastics from a different point of view.

Girls' Gymnastics

... muscles tensed, heart pounding, body and mind prepared for the feat ... interscholastic competition; important individual victories producing even more valuable team victories ... helping each other with stunts ... creating original routines on the horse, balance beam, and uneven bars ... precision, grace ... tests of endurance and competence ... "Oh, please don't let me fall!" ... talent and determination combining to yield skilled performance ... exerting oneself to the breaking point ... dramatic leaps and bounds, somersaulting, cartwheeling ... releasing bolts of energy, ability and skill. ...

"If I had muscles like her, I'd wear a sweatshirt too."
 Laura Molten.
