

"I can't believe Goldilocks just fell for the 'I'm your grandmother' bit." Irwin Kaufer.

Richard Kickenweitz demonstrates how to study while you sleep.

The main goals of the Reading Department were to increase vocabulary, reading comprehension, speed and study skills. In most cases an individualized program was set up to benefit each student. This year for the first time new reading courses were offered through the English Elctrive program. A large variety of audio-visual equipment was available to the students and there were high hopes of an increase in departmental staff to accommodate the new program.
