

Office of the Principal

The SPFHS administration over sees all functions of the school. By meeting with parents, teachers, students, and the Board of Education, the Administration works to offer the best possible educational opportunities to the students.

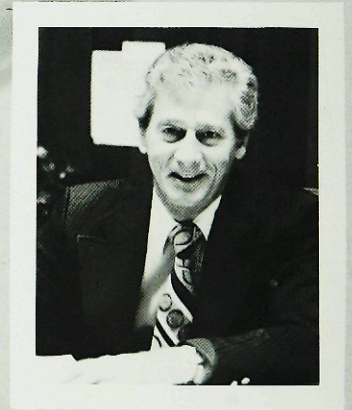

The administration is involved in everything from school maintenance to the evaluation of student and teacher performances. Each member works to bring parents, teachers, students, and members of the community closer together so that the school consistantly offers a well-rounded, effective program of studies.
